

Proposed Signage Details for Three Nooks Farm

The Public Right of Way (Horton 21) crosses the farm access track close to the farmyard. Styles are already in place to provide access across the fenced areas.

Seven Star Natural Gas Limited propose to locate signs either side of the styles, in order to clearly indicate the location of the footpath. Signage similar to that presented below will be utilised, with arrows pointing in both directions.

Warning signs will also be displayed to our Project Staff travelling in both directions to advise of Crossing Walkers.
